

SAMUEL LEAU

Student

PROFESSIONAL SUMMARY

Recent Computer Engineering diploma graduate with a solid foundation in programming, electronics, and embedded systems. Proven hands-on experience with Arduino, microcontrollers, and basic robotics demonstrates a practical approach to problem-solving. A strong passion for leveraging computing and electrical knowledge to develop innovative solutions that enhance everyday life drives continuous learning and improvement. Committed to contributing as a dependable and valuable team member, bringing dedication and a strong work ethic to all projects.

EXPERIENCE

WET Manufacturing Intern, 04/2024 to 07/2024

Micron Technologies - Singapore

- Developed SOPs to provide clear, step-by-step guidance for colleagues, ensuring consistent, efficient, and accurate task execution.
- Assisted in coordinating tasks and scheduling vendor installations, ensuring timely machine-related actions.
- Updating safety measures to enhance workplace safety and foster a more secure working environment

Safe Distancing Ambassador, 10/2021 to 12/2021

RecruitFirst - Singapore

- Assisting with safe distancing duties
-

EDUCATION

Diploma, Computer Engineering, 05/2025

Temasek Polytechnic

Completed a comprehensive program covering both hardware and software aspects of computing systems. Gained hands-on experience in programming, circuit design, microcontroller-based systems, and networking. Developed strong problem-solving skills through practical lab work, team projects, and applied learning in areas such as robotics, IoT, and embedded systems.

GCE 'O' Level Certificate, 09/2021

Ngee Ann Secondary School

GCE 'N' Level Certificate, 09/2020

Ngee Ann Secondary School
